Re: NJDEP Training Program Approval

Dear Mr. Raish

The Advisory Committee on Water Supply & Wastewater Licensed Operator Training recommended, based on its' Policy for Approval of Training Contact Hours for License Renewal, the approval of the 360 Water training program. Accordingly, this letter grants approval for 360 Water to conduct training courses which can issue acceptable Training Contact Hours (TCHs) for license renewal in accordance with the above referenced policy.

We remind you that you must provide course numbers for each of your training events. The number is in the format of xx-xxxxxx-xx. The first two numbers indicate the number of the course provider (i.e. 360 Water number is 09). The next six numbers indicate the month and year of course approval followed by an iterative two numbers (e.g. the third course approved in May 2004 would read 050403). The next to last number would indicate who the course was acceptable for: water operators (1), wastewater operators (2), or both (3). The last number indicates the type of course: non-safety related (0), safety related course (1) or Red Cross (2). Following the above example, the third course approved by 360 Water in May 2004 was applicable to water operators and was a non safety course (09-050403-10).

If you have any questions, please contact Ms. Linda Cantwell, Supervisor Examinations & Licensing Unit at (609) 777 - 1013.

Sincerely,

Randy Correll, Manager  
Contracts & Administrative Operations
